

Need some help around the corners?

Half Round Windows, Curved Stairwells, Arches, Ovals, Ellipses

Half Rounded Windows, Curved Stairwells, Arches, Ovals, Ellipses. All of these are projects that most home builders dread. Not only are they difficult, but they are time consuming. Wouldn't it be nice if you did not have to worry about this? Well with WindsorONE Extra Flex you do not have to. Our Extra Flex bends to your occasion.

Thanks to Extra Flex WindsorONE now offers the same precision profiles you've come to expect, with a little more flexibility. For more information, feel free to contact us at 888.229.7900 or on the web at www.WindsorONE.com.

22.5 degree miters?

Greek Revival Base

3/4"

No more.

No need for builders to make those additional miter cuts to get around today's popular bullnosed corners. WindsorONE proudly introduces the addition of **radius corners** to it's Moldings Collection.

- **Tight Corners**
- **Fast Installation**
- **Clean Look**

Radius

Saving time and money is important. No one wants to spend extra time working on bullnosed corners. This is why WindsorONE created radiused corners for each Style's base and base shoe patterns, making for a seamless blend of yesterday's classic patterns and today's construction techniques.
